Redwood City, CA • jwang81@lion.lmu.edu • (650) 385-9911 • [linkedin.com/in/justin-wang-03673728a](https://www.linkedin.com/in/justin-wang-03673728a)

EDUCATION

Loyola Marymount University

Los Angeles, CA

Bachelor of Business Administration in Information Systems & Business Analytics and Finance

- Expected Graduation: May 2026 | GPA: 3.82

WORK EXPERIENCE

Pacific Horizon LLC

Los Angeles, CA (Remote)

Real Estate Portfolio Analyst (Contract)

May 2025 - Present

- Built Python-based web application that parses P&L statements, balance sheets, and cash flow data from 40+ page PDF financial statements, auto-generating KPI-ranked reports with AI-driven recommendations across a \$60M+ multifamily portfolio and eliminating 100% of manual spreadsheet creation
- Prepared quarterly and annual financial models by extracting and analyzing income statements, rent rolls, and expense reports across 15+ properties to evaluate NOI performance and identify cost-saving opportunities
- Defined and benchmarked KPIs including NOI, occupancy rates, expense ratios, and cash-on-cash returns to assess asset profitability and flag properties requiring special attention
- Delivered executive-level financial reporting and data visualizations translating complex portfolio analysis into actionable, profit-focused decisions

Loyola Marymount University

Los Angeles, CA

Student Housing Budget Intern

March 2023 - Present

- Managed financial data entry and reporting in Workday, processing utility billing records and ensuring data integrity across the student housing budget
- Reviewed and reconciled expense reports to support accurate budget tracking and financial oversight for the student housing department

BAM Strategy

Brooklyn, NY (Remote)

Freelance Data Analyst

November 2024 - September 2025

- Queried and transformed 1M+ row datasets using SQL and Python to support development of machine learning models for client engagement scoring
- Conducted data mining and proof-of-concept analyses measuring client engagement, delivering business intelligence reports to inform quarterly strategic decisions

PROJECTS

U.S. Bank Performance & Competitive Intelligence Pipeline

ISBA 4715 · Loyola Marymount University · 2026

- Built end-to-end banking analytics pipeline ingesting FDIC call report data into Snowflake, transformed through a dbt star schema with 17 data quality tests, and deployed as a Streamlit dashboard benchmarking Axos against digital bank peers
- Automated weekly data extraction via GitHub Actions; scraped competitive intelligence from 19 sources across 5 digital banks using Firecrawl for business intelligence reporting
- Identified Axos's 1.77% ROA outperforms the FDIC industry median by 60 bps, with a 119 bps NIM advantage attributed to its branchless cost structure

SKILLS

- **Technical Skills:** SQL, Python, Tableau (LinkedIn Learning Certified), Excel (Microsoft Certified), Snowflake, dbt, GitHub Actions, Streamlit, Data Visualization, Financial Modeling
- **Analysis:** Financial Reporting, Budgeting & Forecasting, P&L Analysis, Cash Flow Analysis, KPI Development, Statistical Modeling
- **AI and Automation:** AI/ML Integration, Process Automation, Prompt Engineering

ADDITIONAL EXPERIENCE
